

Test your limits.

Affordable testing and training, designed for you,
to ensure everything works as planned.

The best value in IT testing for any company, anywhere.

Platform Lab, the nation's only non-profit IT test and training facility, provides short term physical or remote access to IT hardware, software and massive bandwidth for all types of companies for of IT testing and projects.

Our mission is to provide our clients with a competitive advantage by providing rapid, custom testing solutions requiring key IT hardware, software, massive bandwidth and setup at outstanding value. The value proposition is clear: if IT testing is exceptionally affordable, more companies will verify solutions prior to production. Robust testing leads to better processes, higher quality applications and better people, with fewer mistakes and less waste from under-utilized assets.

More than 180 Platform Lab clients improve their quality and processes without investment in their own IT test infrastructure

Conduct thorough load testing/scalability testing.

- Client-specific test environments provide knowledge of your application capability
